ENVIRONMENT CLEARANCE COMPLIANCE REPORT

October 2021- March 2022

For

GRANITE BUILDING STONE QUARRY (Minor Mineral)

Extent: 4.5180 Ha. (11.1642 Acres)

At

Re.Sy No.: 275/1A

Village: Tripangottur

Taluk: Thalasserry

District :Kannur

State: Kerala,

'Granite Building Stone Quarry Project of Mr. Jovin George'

File NO. 154/ECA/KNR/2018/DEIAA Dated 19/05/2018

Date: 30/05/2022

To,

The Deputy Director General of Forests (c) MoEF, Inetgrated Regional office Kedriya Sadan, Koramangala, 4th Floor, E&F Wings, 17th Main Road, Koramangala II Block, Bangalore - 560034

Respected Sir,

<u>Sub</u>: Environmental Clearance Compliance Report for the period October 2021- March 2022 pertaining to 'Granite Building Stone Quarry of Mr Jovin George'

Ref: Environmental Clearance No: E.C. No: 170/2018 Dated:19/05/2018

As per conditions of the above referred Environmental Clearance (EC), please find enclosed compliance report for period from October 2021 to March 2022 of the EC Granted to 'Granite Building Stone Quarry of Mr. Jovin George' by Ministry of Environmental & Forest under EPA (1986). Also enclosed relevant Annexures in Support of the compliance report for your perusal and record please. A soft copy of the same is sent by email for your record and perusal.

We hope you will find the attached Status Report in Order. Thanking you,

Yours truly,

For 'Granite Building Stone Quarry of Mr. Jovin George

Mr. Jovin George

(Managing Partner)

Encl: as above

Cc: The Member Secretary

State Environment Impact Assessment Authority SEIAA)

Directorate of Environment & Climate Change

4th Floor, KSTRC Bus Terminal, Thampanoor,

Kerala-01

Introduction

Mr. Jovin George, Madathina Mattathil, Palisseri, Thalasserry P.O., Kannur District, Kerala-670101 has been granted for a mining lease to quarry Granite Building Stone over an area of 4.5180 Ha. (11.1639 Acres) in Sy. No: 275/1A of Tripangottur Village, Thalasserry Taluk, Kannur District, Kerala State.

Quarrying / Mining Plan is approved by The Geologist, Dept. of Mining & Geology, Kannur. Vide Letter No. DOC/M-2015/18 Dated 13.04.2018., for a maximum production of 3.00,095 MTA in the III-Year. This granite building stone quarry is located at 3.0 Kms from Tripangottur Village in Thalassery Taluk. The quarry is at a distance of 47 Kms from Kannur town. It can be reached via Pathikkal-Vazhamala Road.

Description of the Project

File No.	:	154/ECA/KNR/2018/DEIAA
Name of the project	:	GRANITE BUILDING STONE QUARRY (Minor Mineral) of Mr.Jovin George
District and state	:	Kannur, Kerala
Taluk / Mandal	:	Thalassery
Village	:	Trippangottur
Category & Schedule	:	B2 & Schedule 1(a)
Khasara No. / Plot No. / Block / Gate No. etc.,	:	Sy. No: 275/1A
Extent of Area	:	4.5180 Ha
Ownership / Occupancy	:	Private Land
Existence of public road/railway line, if any, nearby and approximate distance Nearest Port / Airport	:	The nearest railway station Thalassery is located at a distance 26 Kms. The nearest airport is Calicut which is 115 Kms from the mine.
Latitude & Longitude	:	N - 11°47'53.63" to N - 11°48'01.73" E - 75°40'39.48" to E - 75°40'49.39"
Address of Registered office	•	Mr.Jovin George, Madathina Mattathil, Pallisseri, Thalasserry P.O., Kannur District, Kerala- 670101 E-mail- geosandin@gmail.com

Compliance Status of the General Conditions for Mining Projects Laid down by the District Environment Impact Assessment Authority, Kerala vide their Environment Clearance File No.154/ECA/KNR/2018/DEIAA Dated:19/05/2018

Part A – Specific Conditions

1	A Mines Manager shall be appointed to control, direct,	Complied
	manage and supervise Quarrying Operations as required	
	under the Mines Act 1952.	

Compliance:

A Mines Manager has been appointed to control, direct, manage and supervise the Quarrying operations.

2	Health and welfare measures for the persons employed shall	Complied
	be implemented.	

Compliance:

Health and welfare measures for the Persons employed have been implemented and ensured.

3	Controlled blasting should be practiced, and blasting should	Complied
	be done only during daytime. The mitigating measures for	
	control of ground vibrations to arrest the fly rocks and	
	boulders should be implemented.	

Compliance:

Controlled blasting is practiced and Blasting is done only during daytime. Blasting time is displayed in the sign board. Photo of the Sign Board is added as **Annexure-**1. All precautionary measures are adopted while blasting operations are carried out.

4	Plantation shall be done which includes a green belt of	Complied	
	adequate width around the Mining Lease area excluding the		
	rocky area, along roads, overburden dumps and non-		
	mineralized area by planting suitable native species in		
	consultation with the local DFO/ Agriculture Department.		

Compliance:

A green belt of a width of 7.5mts has been made along the periphery of the Lease area and also along the Access roads by planting local species saplings in consulting with the local DFO/agriculture Department. Photos of the Plantation along the Access area is enclosed as **Annexure-3.**

5	The drains should be regularly desilted and maintained	Complied
	properly. Check dams and gully checks shall be constructed	
	wherever required to arrest siltation. De siltation shall also	
	be done every year before the onset of monsoon.	

Compliance:

All civil structures made for arresting silt will be de-silted before onset of Monsoon.

6	Fencing must be maintained properly all around the lease	Complied
	area.	

Compliance:

The entire lease area is fenced and well maintained.

7	The CSR should cover the felt needs of the locality with	Complied
	special emphasize for implementing ground water	
	recharging techniques in and at the vicinity of the proposed	
	site.	

Compliance:

The CSR activities cover the felt needs of the locality while special emphasize for Education, Health care, Rural development, House Construction etc. were complied. Photos of the CSR receipts are added as **Annexure-4.**

The details of the performed CSR activities are shown in the below Table.

Sectors	Activities	Partners	Beneficiaries	Amount
				spent in Rs
Education	Tharangam	Mattannoor	School	25,000
	Vidhyabhyasa	Legistlative	Childran	
	Padhathi	Assembly and		
		Chittariparamb		
		Govt.HSS		
Health	Medical relief		Native	1,00,000
	fund			
Rural	CCTV Fitting		Natives	50,000
Development				
Infrastructure	House		Native	40,000
	construction			
	Aid			
Temple Fund	Donation for		Temple	10,000
	Temple Aid			
	1	Total	•	2,25,000

8	Appropriate sign boards should be displayed.	Complied

Compliance:

Appropriate Signboards have been displayed. Photos of the Sign Boards were attached as **Annexure-1**

9	The blasting time must be displayed and strictly adhered to.	Complied

Compliance:

Blasting time is displayed at the site and is strictly adhered. Photo of Sign Board showing blasting time is enclosed as **Annexure-1**

10	Dust suppression mechanism must be in place.	Complied

Compliance:

Water tankers with sprinklers are used for dust suppressions.

11	A separate small plot to be maintained in the premise to	Noted
	preserve rare and endemic species, if any, listed in the	
	biodiversity assessment, etc.	

Compliance:

No rare and endemic species are present in the lease area.

12	The PPV values must be less than 10 mm/sec.	Complied

Compliance:

PPV values will be kept below 10 mm/sec.

13	The green belt shall be provided along the periphery.	Complied
		1

Compliance:

Green belt of 7.5mts width has been Provided along the periphery of the lease. Plantation has been done along the Access Road. Photos of the Plantation along the Access Road is enclosed as **Annexure-3**.

14	Where the height of the bench formed during earlier	Complied
	workings exceeds the maximum reach of the excavator	
	engaged for work, such bench height shall be reduced	
	from top to bottom.	

Compliance:

Height of benches will be maintained as specified in the approved Mining Plan.

15	Loose or hanging rock or mineral boulder on the side wall	Complied
	shall be dressed down before engaging persons for work	
	at the bottom of the bench.	

Compliance:

Loose or hanging rock or mineral boulder on the side wall has been dressed down before engaging persons for work at the bottom of the bench.

16	Permanent boundary pillars should be fixed by the	Complied
	proponent before commencing quarrying.	

Compliance:

Permanent boundary pillars have been erected and maintained. Photos of the Boundary Pillars added as **Annexure-2**.

17	No quarry blasting to be undertaken and sustained till	Agreed
	warning time limit expires and/or when continuous 48	
	hours rainfall exceeds 8cms and blasting shall not be	
	resumed until 24hours of rain free situation arises in the	
	quarry locality based on the evaluation by the revenue	
	officials.	

Compliance:

No quarry blasting will be done and sustained till warning time limit expires and/or when continuous 48hours rainfall exceeds 8cms. Blasting will not be resumed until 24hours of rain free situation arises in the quarry locality based on the evaluation by the revenue officials.

18	All waste dumps and top soil dumps shall be properly	Noted
	stabilized using coir mats or bio regeneration. Proper	
	drainage system shall be provided so that water is properly	
	diverted away from the dump slopes with no disturbance	
	to the stability of the slopes.	

Compliance:

Coir mats will be used to cover waste dumps. Proper drainage system will be provided so as to divert the water away from the dump slopes.

19	All dump slopes shall be sufficiently stabilized by using	Agreed
	appropriate species mix of grass, creepers, shrubs and	
	trees. This shall be done in consultation with the Forest	
	department and local research institutes and experts in	
	stabilization of mine dumps.	

Compliance:

All dump slopes will be stabilized as Specified by mix of grass, creepers, shrubs and trees.

20	Garland drains of at least 2 mts width shall be provided all	Complied
	along 7.5 mts buffer zone to divert the water from entering	
	the Quarry slopes. These drains shall be cleaned every	
	year before the monsoon season.	

Compliance:

Garland drains of 2 mts width have been provided all along 7.5 will be made and it will be cleaned every year before the monsoon season.

21	The water from the garland drainage shall be directed to	Complied
	the silt settling ponds. The clarified overflow from the silt	
	settling ponds shall be directed to a Rainwater Harvesting	
	(RWH) pond before releasing the clarified water to the	
	natural water course.	

Compliance:

The water from the garland drainage has been directed to the silt settling ponds. The clarified overflow from silt settling ponds has been directed to a rainwater harvesting pond before releasing the clarified water to the natural water course.

22	A retaining wall of stone rubble with wire mesh of	Agreed
	sufficient width and strength (not less than 2m) shall be	
	constructed at the bottom of the slope of the Quarry lease	
	to arrest any likely roll of boulders during heavy rainfall.	

Compliance:

Scrupulously follows the directions contained.

GENERAL CONDITIONS OF HEALTH

1	First Aid kit provided in the work site. It shall be periodically	Complied
	maintained properly. Some laborers shall be trained on First	
	Aid.	

Compliance:

First Aid kits is provided in the work site and key personnel will be trained to render first aid in case of emergencies.

2	Wholesome drinking water should be provided.	Complied
1		

Compliance:

Wholesome portable drinking water is provided

3	Premises should be maintained as wet to suppress the dust.	Complied

Compliance:

Dust will be suppressed at the source.

4	Sanitary type of latrines and urinals should be provided.	Complied

Compliance:

Latrines and urinals are provided at site office.

5	Resting place to be provided for workers.	Complied

Compliance:

Resting place is provided to workers.

6	'No Smoking'	board	should	be	exhibited	according	to	Complied
	COTPA act.							

Compliance:

'No Smoking' board is exhibited. Sign Board photo is enclosed as Annexure-1.

7	Work should not be done in night.	Complied
		1

Compliance:

Work is done only during day light.

8	Details of nearest hospital, shortest route to hospital and	Complied
	contact number etc. should be available	

Compliance:

Details of nearest hospital, shortest route to hospital and contact number etc. is prominently displayed.

9	Approach roads should be maintained properly	Complied

Compliance:

Approach roads are maintained properly. Photos of the Approach Road is added as **Annexure-3.**

Part B – General Conditions

1	Rainwater harvesting facility should be installed as per	Complied
	prevailing provisions of KMBR/KPBR, unless otherwise	
	specified.	

Compliance:

Rainwater harvesting is a technically feasible solution for overcoming the problem of water scarcity in Mines. Rain water harvesting facility has been made and maintained.

2	Environment Monitoring Cell as agreed under the affidavit	Complied
	filed by the proponent.	

Compliance:

Environment monitoring cell is formed & is made functional. The details of Environmental monitoring cell are given in below table.

Sl No.	Name	Post
1	Head of Monitoring Cell	Mr.Jovin george
2	In charge	Neelappa H. Lamani
3	Member	Ramachandran K.
4	Member	Joys V. T.

3	Suitable avenue trees should be planted along either side of	Complied
	the tarred road and open parking areas, if any, including	
	approach roads and internal roads.	

Compliance:

Avenue trees are planted along either side of the Road. Photos of the Plantation are enclosed as **Annexure-3.**

4	Maximum possible solar energy generation and utilization shall	Agreed
	be ensured as an essential part of the project.	

Compliance:

Solar Energy generation and utilization will be adopted.

5	Sprinklers shall be installed and used in the Project Site to	Complied
	contain dust emissions.	

Compliance:

Water Tankers with Sprinklers are used in project site to control dust emission.

6	Eco-restoration, including the Mine Closure Plan shall be	Noted.
	done at the own cost of the Project Proponent.	

Compliance:

Plantation of various saplings within the project area has been initiated. The mine closure plan will be prepared as agreed by the project proponent.

7	At least 10 per cent of total excavated Pit area should be	Agreed.
	retained as water storage area and the remaining area should	
	be reclaimed with stacked dumping and overburden and	
	planted with indigenous plant species that are eco-friendly, if	
	no other specific condition on reclamation of the Pit is	
	stipulated in the EC.	

Compliance:

During the Closure of the mine, 10 percent of total excavated pit will be retained as water storage area and the remaining area will be reclaimed with stacked dumping & overburden and indigenous plant species will be planted.

8	Corporate Social Responsibility (CSR) agreed upon by the	Complied
	Proponent should be implemented.	

Compliance:

The CSR activities cover the felt needs of the locality while special emphasize for Education, Health care, Rural development, House Construction etc. were complied. Photos of CSR activity in the period is attached as **Annexure-4.**

9	The Lease area shall be fenced off with barbed wires to a	Complied
	minimum height of 4 ft around, before starting of Mining. All	
	the boundary indicators (boards, stores, markings, etc.) shall	
	be protected at all times and shall be conspicuous.	

Compliance:

Lease area is fenced off with barbed wires. Sign boards have been erected at prominent places. Photos of the Sign Boards were enclosed as **Annexure-1**.

10	Warning alarms indicating the time of Blasting (to be done at	Complied
	specific timings) has to be arranged as per stipulations of the	
	Explosives department.	

Compliance:

Warning alarms indicating the time of blasting is arranged as per the stipulations.

Blasting time and safety boards have been erected at all entrance to the mine. Photos of the Sign Board showing blasting time were attached as **Annexure-1**

11	Control measures on noise and vibrations prescribed by	Complied
	KSPCB should be implemented.	

Compliance:

- ➤ Noise and vibration control measures is implemented by adapting controlled blasting.
- ➤ Use of sharp drilling bits, delivery of compressed air at optimal pressure.

 Proper maintenance of compressor, drilling machine, jackhammers and tipper trucks.
- Regular monitoring of noise levels is being done within the core zone and the buffer zone of the mining lease area.

Noise Monitoring photos are attached as **Annexure-5**.

12	Quarrying activities should be limited to daytime as per	Complied
	KSPCB guidelines/specific conditions.	

Compliance:

Quarrying activities are limited to daytime only as per KSPCB guidelines.

KSPCB Consent Letter is enclosed as Annexure-9.

13	Blasting should be done in a controlled manner as specified by	Complied
	the regulations of the Explosives department or any other	
	concerned agency.	

Compliance:

Controlled blasting is done as per regulations. Copy of the Explosive License is enclosed as **Annexure-7.**

14	A licensed person should supervise/control the Blasting	Complied
	Operations	

Compliance:

Blasting supervision/control is done by a Mining Official having DGMS Certificate.

15	Access roads to the quarry shall be tarred to contain dust	Complied
	emission that may arise during the transportation of material	

Compliance:

Access road to the Quarry is well maintained to control dust emissions. Photo of the Access Road is attached as **Annexure-3.**

16	Overburden materials should be managed within the site and	Agreed.
	used for reclamation of Mine Pit as per Mine closure	
	Plan/specific conditions	

Compliance:

Overburden material is used for road making and as a filler along the Greenbelt for plantation purpose.

17	Height of Benches should not exceed 5 M and width should not	Complied
	be less than 5 M, if there is no mention in the Mining	
	Plan/specific conditions	

Compliance:

The height of the benches will not exceed 5 metres, and the width will not be less than 5 metres, in order to ensure safety.

18	Mats to reduce fly rock blast to a maximum of 10PPV should	Complied
	be provided	

Compliance:

Mats are laid on the top of the charged holes area to control fly rock and kept below 10ppv.

19	Maximum depth of mining and general groundlevel at site	Noted
	shall not exceed 10m	

Compliance:

The mining will be carried out following the Approved Mining Plan. Therefore, depth does not exceed beyond 10m.

20	No Mining operations should be carried out at places having a	Noted
	slope greater than 45°	

Compliance:

No Mining operations should be carried out at places having a slope greater than 45°

		Acoustic enclosures should have been provided to reduce	
2	21	sound amplifications in addition to the provisions of green belt and hollow bricks envelop for crushers so that the noise level	Complied.
		is kept within prescribed standards given by CPCB/KSPCB.	

Compliance:

Acoustic enclosures have been provided to reduce sound amplifications.

22	The workers on the site should be provided with the required	Complied
	protective equipment such as ear muffs helmet, etc.	

Compliance:

Requisite Personal Protective equipment (PPE's) is provided to all employees.

2	3	Garland drains with clarifiers to be provided in the lower	Complied
		slopes around the core area to channelize storm water.	

Compliance:

Garland drains are constructed to channelize storm water.

2	24	The transportation of minerals should be done in covered	Complied
		trucks to contain dust emissions.	

Compliance:

All trucks transporting material are covered by firmly tied tarpaulin.

2	5	The proponent should plant trees at least 5 times the loss that	Complied
		has been occurred while clearing the land for the project.	

Compliance:

Plantation has been done which includes a green belt of adequate width around the mining lease area excluding the rocky area, along roads, overburden dumps and non-mineralized area by planting suitable species in consultation with the local DFO/Agriculture Department. Photos of the Plantation along the Access Road is attached as **Annexure-3**.

26	Disposal of spent oil from diesel engines should be as	Complied
	specified under relevant Rules/Regulations.	

Compliance:

Spent oil is re-used as a lubricant for drilling.

27	Explosives should be stored in magazines in isolated place	Complied
	specified and approved by the Explosive Department.	

Compliance:

Explosives are stored in a Licensed Explosives Magazine, which is approved by PESO. Copy of magazine license is attached as **Annexure-7.**

2	28	A minimum buffer distance of 100 M from the boundary of the	Complied
		quarry to the nearest dwelling unit or other structures, not being	
		any facility for mining shall be provided.	

Compliance:

No dwellings are situated within 100 M from the boundary of the quarry.

29	100 M buffer distance should be maintained from forest	Considered
	boundaries	

Compliance:

Mining area is not located near any forest areas.

30	Consent from Kerala State Pollution Control Board under	Obtained
	Water and Air Act(s) should be obtained before initiating	
	mining activity.	

Compliance:

Consent from KSPCB under Air and Water Act(s) is obtained. Copy of the consent is attached as **Annexure-9.**

31	All other statutory clearances should be obtained, as	Complied
	applicable, by project proponents from the respective	
	competitive authorities including that for blasting and storage	
	of explosives.	
i		

Compliance:

All required statutory clearances are obtained.

32	In the case of any change(s) in the scope of the Project, extent,	Noted
	quantity, process of mining technology involved or in any way	
	affecting the environment parameters/impacts as assessed,	
	based on which only the EC is issued, the project would require	
	a fresh appraisal by this Authority, for which the proponent	
	shall apply and get the approval of this Authority.	

Compliance:

There is no change in the scope of the project.

33	The Authority reserves the right to add additional safeguard	Agreed.
	measures subsequently, if found necessary, and to take action	
	including revoking of the Environmental Clearance under	
	provisions of the Environment (Protection) Act,1986, to ensure	
	effective implementation of the suggested safeguard measures	
	in a time bound and satisfactory manner.	

34	The stipulations by the Statutory Authorities under different	Agreed	
	Acts and Notifications should be complied with including		
	the provisions of the Water (Prevention and control of		
	Pollution) Act,1974, the Air (Prevention and control of		
	Pollution) Act1981, the Environment (Protection) Act,1986,		
	the Public Liability (Insurance) Act,1991 and EIA		
	Notification,2006		

The project proponent should advertise in at least 2 newspapers widely circulated in the region, one of which (both the advertisement and the newspaper) shall be in the vernacular language informing that the Project has been accorded Environment Clearance and the copies of the Clearance letters are available with the State Environment Impact Assessment Authority (SEIAA) office and may also be seen on the website of the Authority at www.seiaakerala.org. The advertisement should be made within 10 days from the date of receipt of the clearance letter and a copy of the same signed in all the pages should be forwarded to the Office of this Authority as confirmation

Compliance:

Advertisements are given in two local newspapers.

	36	A copy of the clearance letter shall be sent by the proponent	Complied
		to the concerned Gram Panchayat/District	
		Panchayat/Municipality/Corporation/Urban local Body and	
		also to the Local NGO, if any from whom	
		suggestions/representations, if any were received while	
		processing the proposal. The Environmental Clearance shall	
		also be put on the website of the company by the proponent.	
L			I

Compliance:

A copy of the Clearance is submitted to the concerned authorities. Copy of Panchayat license attached as **Annexure-8.**

37	The proponent shall submit half yearly reports on the status of	Noted
	compliance of the stipulated EC conditions including results of	
	monitored data (both in hard copies as well as by e-mail) and	
	upload the status of compliance of the stipulated EC conditions,	
	including results of monitored data on their website and shall	
	update the same periodically. It shall simultaneously be sent to	
	the respective regional office of the MOEF, Govt. of India and	
	also to the State Environment Impact Assessment Authority	
	(SEIAA) office	

Compliance:

Half yearly compliance reports are submitted as stipulated to State Environmental Impact Assessment Authority and the Regional Office of MoEF & CC, Bangalore.

The monitored Photos and Report of Air, Noise and Water is attached as **Annexure-5** & 6.

38	The details of Environment Clearance should be prominently	Complied
	displayed in a metallic board of 3 ft x 3 ft with green	
	background and yellow letters of Times Roman font of size not	
	less than 40. Sign board with extent of Lease area and	
	boundaries shall be depicted at the entrance of the quarry,	
	visible to the public	

Compliance:

Details of Environmental Clearances is prominently displayed at the entrance to the

Mine. Photo of the sign board is attached as Annexure-1

39	The proponent should provide notarized affidavit (indicating	Complied	l
	the number and date of Environmental Clearance proceedings)		
	that all the conditions stipulated in the EC shall be scrupulously		
	followed.		

Compliance:

Notarized affidavit is submitted.

40	No change in mining technology and scope of working should	Agreed				
	be made without prior approval of the SEIAA. No further					
	expansion or modifications in the mine shall be carried out					
	without prior approval of the SEIAA, as applicable.					

Compliance:

Prior approval from the SEIAA willbe sought in case of change of mining technology.

41	The Project proponent shall ensure that no natural water course	Complied				
	and/or water resources shall be obstructed due to any mining					
	operations. Necessary safeguard measures to protect the first					
	order streams, if any, originating from the mine lease shall be					
	taken.					

Compliance:

No natural water course is obstructed. Necessary safeguard measures are taken to protect first order streams if originating from the mining lease in the future.

42	Monitoring of Ambient Air Quality to be carried out based on	Complied				
	the Notification 2009, as amended from time to time by the					
	Central Pollution Control Board. Water sprinkling should be					
	increased at places loading and unloading points & transfer					
	point to reduce fugitive emissions.					

Compliance:

Monitoring of Ambient Air Quality is carried out. Monitoring reports have been enclosed as **Annexure-6.** Water sprinkling is done at appropriate places with water tanker.

43	The top soil, if any, shall be temporarily be stored at earmarked	Complied				
43	site(s) only for the topsoilshall be used for land reclamation and					
	plantation. The Over burden (OB) generated during the mining					
	operations shall be stacked at earmarked dump site(s) only. The					
	maximum height of the dumps shall not exceed 8 m and the					
	width 20 m and overall slope of the dumps shall be maintained					
	to 45°. The OB dumps should be scientifically vegetated with					
	suitable native species to prevent erosion and surface run off. In					
	critical areas, use of geo-textiles shall be undertaken for					
	stabilization of the dump. The entire excavated area should					
	continue until the vegetation becomes self- sustaining					

Compliance:

Available top soil is used at the Greenbelt for plantation. The Over burden generated is stacked separately and is vegetated with locally available shrubs and grasses.

44	Catch drains and siltation ponds of appropriate size shall be	Complied	
	constructed around the mine working, mineral and OB dumps		
	to prevent run off of water and flow of sediments directly into		
	the river and other water bodies. The water so collected should		
	be utilized for watering the mine area, roads, green belt		
	development, etc. The drains shall be regularly de silted		
	particularly after monsoons and maintained properly		

Compliance:

Catch drains and siltation ponds are made around the mining workings, mineral and the water from the drain is directed to the Rain Water Harvesting Pond. The water from RWHP is utilized for watering the mine area, roads, green belt development etc. The drains are regularly de silted particularly after monsoons and maintained properly.

plied

Compliance:

Regular water sprinkling is done on all necessary roads with water tankers and sprinklers.

4	-6	Fugitive dust emissions from all sources should be controlled	Complied
		regularly. Water spraying arrangements on haul roads, loading	
		and unloading and transfer points should be provided and	
		properly maintained.	

Compliance:

Fugitive dust emissions are controlled. Regular water sprinkling is done on haul roads, loading, unloading and transfer points with water tankers with sprinklers.

47	Measures should be taken for control of noise levels below 85	Complied
	dB (A) in the work environment.	

Compliance:

Adequate measures for noise control have been adopted.

48	A separate environmental management cell with suitable	Complied				
	qualified personnel should be set up under the control of a					
	senior executive, who will report directly to the head of the					
	Organization.					

Compliance:

An Environment Management Cellhas been set up with Mr. Jovin George as the head of the Cell.

49	The funds earmarked for environment protection measures	Complied
	and CSR activities should be kept in a separate account and	
	should not be diverted for other purpose. Year wise	
	expenditure should be reported to the State Environment	
	Impact Assessment Authority (SEIAA) office.	

Compliance:

The funds earmarked for environment protection measures and CSR activities has been kept in a separate account and will not be diverted for other purpose. Photos of the CSR receipts are enclosed as **Annexure-4**.

50	The l	Regional off	ice of Mo	EF &	CC located a	t Bang	alore shall	Agreed
	moni							
	autho							
	the							
	data/	information/	monitori	ng rep	orts.			

51	Any appeal against the Environment Clearance shall lie with	Agreed			
	the National Green Tribunal, if preferred, within a period of				
	30 days as prescribed under Section 16 of the National Green				
	Tribunal Act, 2010				

52	Concealing the factual data or submission of false/fabricated	Agreed
	data and failure to comply with any of the conditions	
	mentioned above may result in withdrawal of this clearance	
	and attract action under provisions of the Environment	
	(Protection) Act, 1986.	

53	The SEIAA may revoke or suspend the order for non-	Agreed
	implementation of any of the specific or this implementation	
	of any of the above conditions is not satisfactory. The SEIAA	
	reserves the right to alter/modify the above conditions or	

	stipulate any further condition in the interest of the environment protection	
54	The above conditions shall prevail not withstanding anything	Agreed
	to the contrary, inconsistent or simplified, contained in any	
	other permit, license on consent given by any other authority	
	for the same project.	
55	The order is valid for a period of 5 years of the expiry date of	Agreed
	Mine lease period issued by the Government of Kerala,	
	whichever is earlier	
	<u> </u>	
56.	The Environment Clearance will be subject to the final order	Agreed
	of the courts in any pending litigation related to the land or the	
	project, in any court of law.	
57	The Mining operations shall be restricted to above ground	Noted
	water table and it should not intersect ground water table.	
Com	ipliance:	
Mini	ng operations will be restricted to above ground water table and du	ie care will be ta
	at mining does not intersect ground water table.	
58	All vehicles used for transportation and within the mines shall	Noted
	have 'PUC' certificate from authorized pollution checking	

center. Washing of all vehicles shall be inside the Lease area

Compliance:

It is ensured that all transportation vehicles have 'PUC' Certificate issued by an authorized Pollution checking center. All the vehicles are washed inside the lease area.

59	Project proponent should obtain necessary prior permission of	Agreed.
	the competent authorities for drawl of necessary quantity of	
	surface and ground water for the project.	

Compliance:

There is no need for Drawl of Surface and ground water for the project activities. The Rain Water Facility present will be main source of water.

60	Regular monitoring of flow rates and water quality upstream	Noted
	and downstream of the springs and perennial nallahs flowing in	
	and around the mine lease area shall be carried out and reported	
	in the six-monthly reports to SEIAA.	

Compliance:

No perennial nallah flows through the lease or exist around the Mine Lease.

61	Occupational health surveillance program of the workers	Noted
	should be undertaken periodically to observe any contractions	
	due to exposure todust and take corrective measures, if needed.	

Compliance:

Occupational health surveillance will be undertaken periodically.

A	Industrial Area	75	70	
В	Commercial Area	65	55	
С	Residential Area	55	45	
D	Silence Area	50	40	

Day time shall mean from 6:00 am and 10.00 pm
Night time shall mean from in between 10.00 pm and 5.00 am
Silence zone is an area comprising not less than 100 meters around hospitals, educational institutions, courts, religious places or any other area which is declared as such by the competent authority
Mixed categories of areas may be declared as one of the four above mentioned categories by the competent authority
*dB(A) Leq denotes the time weighted average of the level of sound in decibels on scale A which relatable to human being
A "decibel" is a unit in which noise is measured
"A", in dB(A) Leq, denotes the frequency weighting in the measurement of noise and corresponds to frequency response characteristics of the human ear.
